## *You Are Welcome to* Scenic LINDUM GARDENS

For the past several years I have been collecting from Europe and Canada and the United States, the World's finest varieties of Rhododendrons and Hardy Azaleas. Over 350 varieties are now growing on my hillsides in one of the Nation's largest and finest collections displayed in a most scenic setting.

Imported from the gardens of Europe and grown here in fine soil, or propagated here, these choice varieties of Rhododendrons and Azaleas are now available to you in our Nursery to add to the splendor of your garden.

### PICK OUT YOUR OWN PLANTS

You are welcome at any time to see this display and to pick out your own plants in the Nursery from a stock of over 35,000 plants. Both the imported plants and those propagated here from fine stock have been grown in very fine soil and have a well established root system. The plants are of the finest quality.

### PLANTING NOTES

Rhododendrons will grow in any soil that does not contain lime, is porous without being dry and is fairly rich in humus. They have a close, fibrous root system and if well watered, can be transplanted almost any time, but the best seasons are from September to June, preferably in the Fall and Spring. Plant them not more than an inch deeper than they were planted in the Nursery, in a mixture of Peat Moss or other humus and good top soil, preferably half and half, mixed in a hole 3 feet in diameter by 20 inches deep. If the soil is clay or very poor, remove the soil to a depth of 18", put in good leaf mold, top soil, humus and peat. Cut out tree roots. Avoid heavy muck or loam without air in the soil. Use good soil and little fertilizer. After planting, mulch with leaves, leaf mold, or well rotted cow manure. They will not grow in alkaline soil. A little fertilizer in the Spring when the new growth starts, is advisable to most varieties. Remove seed pods as soon as blooms have faded.

## DESCRIPTION, GRADES, AND PRICES

It is difficult to describe the size, shape and quality of all plants in a general list. A slow growing, compact, spreading plant, like Britannia, Jan Dekens or Unique is worth more in a 15"-18" plant, than a tall rangy growing plant like Beauty of Littleworth, Pink Pearl, Antoon Van Welie or Sappho. Therefore, in placing a price on a plant, consideration will be given to its comparative size value.

Plants especially selected at the nursery will be priced according to their shape and value irrespective of the general prices in this list.

A discount of 10% will be given on orders over \$100.00.

## VARIETIES

I am endeavoring to have the finest possible list of hardy reliable Rhododendrons and Azaleas for general planting. I have not listed this year some varieties that I do not consider up to standard for general use. A few new ones have been added.

## PORTLAND HARDINESS RATING

After the cold winter of 1949-50 when the temperature here dropped for a long period from -5° to -16° in most nurseries, the American Rhododendron Society sent a questionnaire to its members to determine the damage caused by the cold and the degrees of coldness different varieties would stand. From the results many varieties were rated. These were rated as given below (H-2) based on the minimum temperatures which the variety given may be expected to stand with no injury to leaf, stem or bud. Where the variety is rated it is given after the English rating. These ratings are as follows:

H-1—Varieties hardy to -25° F

These varieties should be hardy in southern New York and southern New England.

H-2—Hardy to -15° F

H-3—Hardy to -5° F

These varieties should be fairly hardy in the southern part of Long Island, Cincinnati, Washington and around Philadelphia.

H-4—Hardy to 5° F

H-5—Hardy to 15° F

These varieties should be hardy during most winters in the Portland and Seattle areas.

## AZALEA HARDINESS

The Azaleas listed are much more hardy than most of the Rhododendrons. The Ghents and most of the others will stand the winters of Mid-West and Lake States. The Malvatica Evergreens have been grown in Ohio, Illinois and Michigan. To stand the dry summers of the Inland States they need part shade.

## GENERAL STANDARD

As a guide to follow in establishing a standard plant in spread in the larger sizes, we will take an average plant in spread for a given variety in a specified height, say 18" to 24" and call that a standard plant. If the plant is below standard for that variety, it will be graded and priced one size smaller. But extra bushy plants will be graded to larger sizes as follows:

## EXTRA BUSHY PLANTS

Extra bushy plants will be priced the same as a higher size and more than extra bushy plants, will be the same as two sizes higher. In general large size plants over 18" will be priced according to their shape, bushiness and real value and not just their height.

## SYMBOLS

First Class Certificates (FCC); Awards of Merit (AM); Hardiness ratings (B) and Stars (\*) were given by the Royal Horticultural Society of England. Blooming seasons as a rule are from March to June and plants are marked (VE) very early; (E) early; (ME) medium early; (M) mid-season; (ML) medium late; (L) late; and (VL) very late. Most varieties will stand full sun if kept watered, but prefer part shade. Some varieties require part shade with plenty of daylight and in dry, hot areas of the East and Mid-West, part shade is essential.

Where the variety is not too new to be rated the stars (\*) indicate the quality rating given in England. Our opinion may be different.

The range in the hardiness of the Rhododendrons (English rating) is marked (AA), (A), (B), (C), (D) and (E). (AA) "Iron Clads" for northern United States. (A) will stand full exposure to sun and cold. (C) is hardy West of the Cascades and should have partial shade in most cases. (D) and (E) are tender.

Growers in Long Island, New Jersey, Delaware, Maryland, Virginia and Kentucky report that plants rated (A) and (B) should succeed there in part shade. (AA) these are the "Iron Clads" for the colder parts of the East, Mid-West and Northern States.

## TERMS OF SALE

Net Cash.

Prices f.o.b. Nursery.

There is no charge for packing materials.

When plants are ordered shipped, payment should accompany the order and the plants will be shipped promptly, in planting seasons, in good condition, either by Express, or Auto Freight, Collect. Plants will be shipped to any part of the United States.

*I wish to place on order for six more plants. I also want you to know that I was very pleased with the plants purchased from you early this spring. They have done well in spite of our dry, hot summer this year. I have never seen such beautiful blooms.*

BEAUTY OF LITTLEWORTH — White

*This is the first chance I've had to thank you for the fine Rhododendron plants you sent me.*

*Wm. T. Gotelli  
New Jersey*

BRITANNIA — Cherry Red

5/31/52

*The Britannia I received some days ago was in full bloom when it reached me. It was a beauty and reached me in perfect shape. Thanks for your care in packing.*

8/26/52

*I bought several Rhododendrons from you last fall. All are living, growing and doing splendidly. I intend to buy quite a few this fall and next spring.*

11/12/52

*The last two Rhododendrons were beauties. They were covered with buds and reached me in perfect shape. Not a bruised leaf.*

3/28/53

*Thanks for selecting the plants you shipped me recently. They were beautiful bushy plants and literally covered with buds.*

9/3/54

*You should see my plants. They are planted in the world's worst location. I have violated every rule in the book and I have never lost a plant. All plants are growing and are looking wonderfully well. I am not only pleased, but I am amazed at the success I am having. I enclose \$20.00 for two more plants.*

9/23/54

*Mrs. Furnival and Mrs. E. Pearson arrived today and as usual, arrived in splendid condition. They appeared as fresh as they must have looked in your Nursery, before they made the long trip South.*

- DR. ARNOLD W. ENDTZ** (A) (M). An attractive well-shaped plant with curly, attractive leaves. Large trusses of lilac-pink, or crimson-carmine flowers with yellow shaded centers and fringed petals. New. Floriferous. 9-12 in. \$4.00; 12-15 in. \$5.00; 15-18 in. \$6.50; 18-21 in. \$7.50; 21-24 in. \$8.50.

EARL OF ATHLONE — Blood Red

*I have planned to write to you various times and . . . just didn't. But, I wanted to tell you that the plants I received from you were lovely and that packing was really something to see. I had hesitated about ordering from western growers because of the distance and expense. But your packing, etc., really cuts that down.*

*I ordered some plants after much study from a very reputable Eastern grower. Your plants were so much nicer and his were packed in such heavy crates, with green lumber, that there wasn't too much difference in the cost. I feel that the better plants more than compensated for the difference. Two of them bloomed, a feast for the eyes . . . I'm enjoying my plants and look forward to ordering more from you later.*

Mrs. H. C. Bowles  
Kentucky

DR. A. BLOK — Light and Dark Pink

- \*\* **DR. O. BLOK** (B) (L) AM 1937. Vigorous grower. Large, attractive leaves. Large truss of bi-color flowers, pale pink with darker edges. Shapely plant. 9-12 in. \$4.00; 12-15 in. \$5.00; 15-18 in. \$6.50; 18-24 in. \$8.00; 24-30 in. \$10.00; 30-36 in. \$12.00; 36-42 in. \$15.00; 42-48 in. \$17.50 to \$20.00.

**DR. V. H. RUTGERS** (A) (M). One of the old time hardy varieties having deep red flowers with fringed petals. 9-12 in. \$4.00; 12-15 in. \$5.00.

- \*\*\* **EARL OF ATHLONE** (C) (H-4) (ME) FCC 1933. The very finest blood red Rhododendron grown. Large creamy stamens. Floriferous. Steady bloomer. Good foliage. A top-notch. Only fair shape when young. 9-12 in. \$5.00; 12-15 in. \$6.00; 15-18 in. \$7.50; 18-24 in. \$9.00; 24-30 in. \$12.50; 30-36 in. \$15.00 to \$17.50.

**EDMUNDII** (C) (E). An early flowering red. 9-12 in. \$4.50; 12-15 in. \$6.00.

**EL ALAMAIN** (B) (M). A new fine red, more hardy than Earl of Athlone and a little later. Earlier than Kluis Sensation or Britannia. 9-12 in. \$5.00; 15-18 in. \$8.50; 18-24 in. \$10.00.

\*\*\***ELIZABETH** (B) (E). One of the finest low-growing hybrids, reaching a height of 3 feet and fully as broad. Small leaves and a mass of fiery red flowers in April and May. New. 4-6 in. \$4.00; 6-8 in. \$5.00; 8-10 in. \$6.50; 15-18 in. \$8.50; 18-24 in. \$10.00.

\*\***ELSPETH** (B) (ME) AM 1937. This outstanding Rhododendron is scarlet when first opening, quickly fading to a rich apricot with scarlet edges. Fine compact truss. Medium growth. 15-18 in. \$8.50; 18-21 in. \$9.00; 21-24 in. \$11.00; 24-30 in. \$12.50.

\***EMELINE BUCKLEY** (C) (M). Bright rose with a dark blotch similar to Mrs. Furnival only a little earlier and a larger truss. Medium growth. 9-12 in. \$5.00; 12-15 in. \$6.00.

\*\*\***FABIA** (B) (H-4) (L) AM 1934. Rather lax flower trusses of tubular salmon-orange flowers. Dark green, lanceolate, felted leaves. Low growing, spreading. June. Varieties: Tangerine, Tower Court, Roman Pottery and A.M. Tangerine—15-18 in. \$6.00; 18-24 in. \$7.50; 24-30 in. \$9.00. Roman Pottery—9-12 in. \$4.00; 12-15 in. \$5.00. Tower Court—9-12 in. \$4.00; 12-15 in. \$5.00.

\*\*\***FAGGETTER'S FAVORITE** (B) (H-3) (M) AM 1933. An excellent grower, fine foliage, and beautiful coral pink trusses. Early May. A good companion of the Loderias. Needs part shade. Stood cold to -5°. 9-12 in. \$4.00; 12-15 in. \$5.00; 15-18 in. \$6.50; 18-24 in. \$8.00; 24-30 in. \$10.00; 30-36 in. \$12.00; 36-42 in. \$15.00.

\*\***FASTUOSUM FLORE PLENO** (A) (H-2) (ML). An old hardy variety with a loose truss of striking mauve flowers that are double. Floriferous. Good for cut flowers. 9-12 in. \$4.00; 12-15 in. \$5.00; 15-18 in. \$6.00; 18-21 in. \$7.50; 21-24 in. \$8.50.

\*\***FIREBALL** (B) (VE) AM 1925. A bright deep, crimson like Gill's Crimson only low growing and a better bloomer. One of the best and hardiest of early bloomers. Long lasting flowers. 6-9 in. \$3.50; 9-12 in. \$5.00; 12-15 in. \$6.50.

**FIRETAIL** (L) FCC 1937. The finest Britannia Hybrid. A strong growing brilliant crimson-scarlet, flowering mid-June. New. 12-15 in. \$6.50; 15-18 in. \$8.50; 18-24 in. \$10.00.

*Enclosed is my check for \$100.00 for Rhododendrons to make a row of plants.*

The following year:

*As I told you in my last letter, friends of mine saw the plants I had received from you the year before and were so delighted with them, that they asked me to order them some. As a result, we wish to place an order for 40 plants.*

Three months later:

*The Rhododendrons you shipped me last February arrived in fine shape. I divided them among my friends, told them how to plant them, and this week end made a tour of inspection. I found that every plant had bloomed or is now blooming and that all are growing satisfactorily. All three of my friends asked me to thank you for sending such fine plants. It was remarkable in what good shape they arrived and how well they are doing after the long trip from Oregon.*

*Thanking you for the wonderful plants you have sent.*

*R. Walker Geitner  
North Carolina*

*The plants reached me in perfect shape. They were indeed very nicely packed. Thanking you kindly.*

# The World's Finest AZALEAS

Many garden lovers class these Azaleas at the very top in brilliance, range of color, and beauty of flower. In the months of April and May, they are a mass of strong colors—red, orange, yellow, gold, white, copper, bronze, pink, crimson, mauve, and variegated. We have fifty of the finest varieties blooming for six to eight weeks. First the Molles, then the Occidentales and then the Ghents and Knap Hills with the Occidentales still in flower. They like sun with plenty of moisture, but in the Mid-West where the air is dry and the sun burning, they prefer part shade. They like the same soil as Rhododendrons, but will stand more exposure. Plant at the same depth as they were at the Nursery. It is preferable to remove the seed pods after blooming. All large plants budded ready for Spring bloom.

## BEAUTEOUS AND FRAGRANT OCCIDENTALIS HYBRIDS

Comparatively new in this country are these flower gems, which in the Spring present a mass of blooms in the softer, more refined shades and fill the air with delicate perfume. The different varieties form one of the loveliest groups of plants. Their shades range through pink, cream, white, yellow and soft orange, variegated and blended in pleasing harmony. Budded, ready for Spring bloom.

- \*\***DELICATISSIMA**. Creamy white with pink and yellow and orange shades. 18-24 in. \$7.50; 24-30 in. \$8.50.
- \*\***EXQUISITA**. This is the latest of the Occidentales to bloom. It has shades of pink and white and light yellow and cream, with pink predominating, and the leaves start their growth with the flowers still in bloom. 18-24 in. \$6.50; 24-30 in. \$8.00; 30-36 in. \$10.00 to \$12.50.
- \*\***GRACIOSA**. Blooms of this variety have a sharper contrast of strong colors—creamy pink with orange and yellow markings. One of the best. Slower growing. 18-24 in. \$7.50; 24-30 in. \$9.00.
- \*\***IRENE KOSTER**. This is the earliest of the Occidentales to bloom. It has shades of soft, light and dark pinks, and fills the air with fragrance. 15-18 in. \$5.00; 18-24 in. \$6.50; 24-30 in. \$8.00; 30-36 in. \$9.50; 36-42 in. \$11.00; 42-48 in. \$12.50.
- \*\***MAGNIFICA**. This variety is similar in color to Graciosa. Creamy white flushed pink with yellow and orange only softer color contrasts. 15-18 in. \$6.00; 18-24 in. \$7.50; 24-30 in. \$9.00; 30-36 in. \$11.00; 36-42 in. \$12.50.
- \*\***SUPERBA**. This has the lighter shades like Exquisita only with an apricot blotch, being pink and cream and apricot, with pink predominating. 15-18 in. \$5.00; 18-24 in. \$6.50; 24-30 in. \$8.00.

IRENE KOSTER — Fragrant Occidentalis, Pink

## HARDY GHENT HYBRIDS

Hybridizing of Azaleas started in Ghent, Belgium, in 1825. Since then they have been crossed and re-crossed many times to form our present varieties. These Pontica Hybrids or hardy Ghent Azaleas have a wide variety of strong colors, true and variegated. They are red, orange, yellow, light yellow, bronze, white, pink, crimson, mauve, purplish red and mixtures of colors. Their individual honey-suckle shaped flowers are smaller than the Molles and they are later to bloom than the Mollis or Occidentalis Hybrids. Good bloomers. They are hardy enough for the northern part of the United States. All budded ready for Spring bloom. Noted for their lasting qualities.

- \* **BOUQUET DE FLORE**. Bright pink, pale pink and white stripes. Very beautiful. Very late. 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.50.
- \*\***COCCINEA SPECIOSA** (M). The color of this bloom is very similar to Gloria Mundi and the habit of growth is similar but not quite so spreading. Reddish orange predominates. Mid-season. 12-15 in. \$3.50; 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.50; 30-36 in. \$9.00; 36-42 in. \$12.50.
- \* **DAVISSI** (M). Creamy white, pale yellow eye, very hardy. Fine for woodland planting. 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.50; 30-36 in. \$9.00.
- \* **DR. CHAS. BAUMAN**. Deep blood red. Late. 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.50.
- \* **FANNY**. A beautiful rose-pink. Early. 12-15 in. \$3.50; 18-24 in. \$6.00.
- \*\***GLORIA MUNDI**. This is a lower, more branching and broader plant than Unique and blooms later. In fact, it is one of the latest to bloom. Its color is not as sharp and strong as Unique and a little darker in shade. It has orange and red and yellow markings with orange predominating. Same flower as Coccinea Speciosa only broader bush. 12-15 in. \$3.50; 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.50; 30-36 in. \$9.00; 36-42 in. \$12.50.
- \* **IGNEA NOVA**. Carmine-red, yellow lobe. Late. 18-24 in. \$6.00; 24-30 in. \$8.00.
- \* **SANG DE GENTBRUGGE**. Dark crimson. Late. 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.50; 30-36 in. \$9.00.

A MOLLIS HYBRID AZALEA

A GHENT AZALEA, NANCY WATERER

- \* **NANCY WATERER.** This has a large, bright, deep golden yellow flower with lighter shades. One of the best. Mid-season. 12-15 in. \$3.50; 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.50; 30-36 in. \$9.00.
- \* **NARCISSIFLORA.** A taller growing clear sulphur yellow. Double. Mid-season. 18-24 in. \$6.00; 24-30 in. \$7.50.
- \* **PALLAS (E).** Geranium red with orange blotch and a little earlier than the others. 18-24 in. \$6.00; 24-30 in. \$7.50.
- \* **RAPHAEL DE SMET (M).** White and rose. Double. 24-30 in. \$7.50; 30-36 in. \$9.00.
- \*\* **UNIQUE.** This is a very striking, strong, bright deep buff-yellow, blushed and suffused orange. Large truss; open habit. A taller grower than the others and one of the very best. 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.50; 30-36 in. \$9.00; 36-42 in. \$12.50.

### KNAP HILL AZALEAS

This new strain of hardy deciduous Azaleas, developed at Knap Hill, Slocock and Exbury, England, is reputed to be the finest in the world. We have a large stock of plants raised from hand pollinated seed of the named Exbury varieties. They bloom at about the same time as the Ghent Hybrids. The flowers are large, brilliant with lasting qualities and range in all colors—red, yellow, apricot, pink, salmon, flame, orange, but these seedlings have not yet been separated into color groups. Prices of these selected seedlings: 9-12 in. \$2.50; 12-15 in. \$3.50; 15-18 in. \$4.50.

#### Named varieties in the Slocock strain of Knap Hill Azaleas

- HARVEST MOON.** Large pale yellow flowers. 15-18 in. \$6.50.
- PERSIL.** Pure white with pale yellow blotch at throat. 15-18 in. \$6.50.
- SEVILLE.** An intense orange. 15-18 in. \$6.50.

### DOUBLE HYBRIDS Rustica Flore Pleno

This group has smaller individual flowers than the other hybrids, but they are double, colorful, fragrant and dainty. They are a mass of color. Hardy. Early flowering. Delightful. Stand sun well.

- \* **AIDA (ML).** Rose, slightly tinted lilac. Spreading bush, long lasting flowers. 15-18 in. \$5.00; 18-24 in. \$6.50.
- \* **CORNEILLE (M).** This is a taller-growing plant. The flowers are distinct and beautifully dainty. They are little apple-blossom rosettes, light pink in the center with dark pink and red stripes on the edges. One of the best. 15-18 in. \$5.00; 18-24 in. \$6.00; 24-30 in. \$7.00.

MOLLIS HYBRID AZALEA, GOLDEN SUNLIGHT

## HARDY EVERGREEN AZALEAS

### THE EXTRA HARDY MALVATICA EVERGREENS

This is a relatively new group and is destined to have a permanent place in our gardens. They have larger flowers and larger bushes than the Kurumes. The plants will grow to about 4 feet in height and 5 feet across and are smothered with bright blooms in the Spring. They are very hardy and range in color through the various shades of pink and rose, orange and red. Fine for foreground and mass planting. Will stand full sun but the flowers last longer in part shade. Have grown in the coldest parts of Ohio, Illinois and Michigan. Budded and ready for bloom.
